

HARVARD UNIVERSITY FINANCIAL INTEREST DISCLOSURE FORM

(For Non-Harvard Medical School-Affiliated Individuals)

This form is intended for use by Harvard-affiliated individuals without an active HUID. If you have an active HUID, please use the electronic version of this form at <http://fcoi.harvard.edu>. Separate guidance is available at <https://ari.hms.harvard.edu/> for Harvard Medical School-affiliated individuals. If you are a non-Harvard sub-awardee on a project sponsored by agencies of the US Public Health Service, please contact a [COI Officer](#) before completing this form.

All members of the Harvard community share a commitment to uphold the University's core missions and values. Among these missions and values are assurance of personal and institutional integrity in the conduct of all academic duties; pursuit and communication of truth; independent, objective, and ethical scholarship and research; accountability for actions and conduct; and, preservation of the University's standing as an institution worthy of public confidence and trust.

In seeking to uphold the highest standards of integrity and maintain the reputation of all faculty members and the University, Harvard has enacted a [Policy](#) on Individual Financial Conflicts of Interest for Persons Holding Faculty and Teaching Appointments, and Procedures specific to the implementation of the August 25, 2011 Public Health Service Rule. In accordance with the Policy, complete the following brief disclosure of your financial interests to the best of your knowledge. All disclosures will be held in strict confidence. While you are engaged in a project funded by the NSF or any of the agencies that follow the PHS rules for FCOI (42 CFR 50, Subpart F), training is also required once every four years. That training is posted online at https://vpr.harvard.edu/files/ovpr-test/files/fcoi.harvard.edu_training_pdf, and a certification to having completed that training is included at the end of this form.

If you require guidance regarding how to complete this form, please contact the [COI Officer](#) in the Harvard School with which you are affiliated.

APPENDIX A: Definitions of Key fCOI Terms (Last Updated: April 19, 2012)

Equity means stock, stock options, warrants or other ownership interest. You are not required to disclose equity held in diversified financial holdings such as mutual funds.

Family Member means spouse and dependent children. So far as the financial interests of family members bear upon the application of the University policy on financial conflicts of interest, a faculty member must affirmatively make inquiry into, and shall be presumed to know of, the financial interests of family members as herein defined.

Fiduciary or Management Role means service as an officer, director or service on an advisory board (including scientific advisory boards), whether paid or unpaid. Investigators may need prior approval from the Dean before assuming such responsibilities. "Fiduciary or management role" does not mean service on an editorial board. In their implementation plans, schools may extend this requirement to include service on the board or advisory panel of a not for profit entity.

Institutional Responsibilities means an individual's professional responsibilities on behalf of Harvard. Such responsibilities include, but are not limited to: research, research consultation, teaching, professional practice, institutional committee memberships, and service on committees or panels such as research ethics committees (e.g. Institutional Review Boards, Institutional Animal Care and Use Committees) and other bodies monitoring the conduct of research.

Investigator means the project director or principal Investigator and any other person, regardless of title or position, who is responsible for the design, conduct, or reporting of research

Related Outside Entity means an entity in which a person has a significant financial interest that may, or may reasonably appear to an outside observer, to influence the discharge of teaching, research, or other University-related responsibilities. In determining relatedness, individuals should employ a standard of common sense, and when in doubt, disclose. Examples of entities that might be related are those:

- (1) whose products, services or activities are related to the areas of a faculty member's or an investigator's teaching or research;
- (2) that fund research in a faculty member's or an investigator's area of academic interest;
- (3) that own or have rights to develop intellectual property that is the subject of research in which a faculty member or an investigator participates;
- (4) that compete commercially with such an entity as described in (3);
- (5) that make or propose to make a gift to the University that would support a faculty member's or an investigator's teaching or research activities;
- (6) that furnish products or services to the University through a contractual process in which a faculty member or an investigator participates in any way;
- (7) that propose to enter a licensing agreement with the University with respect to technology invented by the faculty member or investigator;
- (8) that act as a legal or de facto agent for any outside entity engaged in any of the above activities.

School Implementation Plans may define "related outside entity" beyond the definition provided above. You should consult your school's Plan carefully.

Significant Financial Interest includes, but is not limited to, (1) financial compensation, including travel, from consulting, employment, managerial, and fiduciary relationships that, when aggregated over the preceding twelve months, exceed \$5,000; (2) equity and other financial interests above \$5,000; (3) equity interests of any amount, or entitlement to the same, in a non-publicly traded, for-profit, entity; and (4) intellectual property rights and interests (e.g. patents, copyrights), upon receipt of income related to such rights and interests. "Financial compensation" does not include, for example, interests of any amount in diversified financial holdings, or royalties or other remuneration paid by Harvard.

School Implementation Plans may define "significant financial interest" beyond the definition provided below. You should consult your school's Implementation Plan carefully.
